

AGENDA

19 April 2006

Meeting between AlpCity, Recover and Innoref projects representatives
Palazzo Balbi - Meeting Room 'Travi'- 3rd FLOOR
Dorsoduro 3901 - VENEZIA

The meeting has the aim to exploit synergies among the AlpCity case studies and the Innoref sub-project Recover. The topic (Re-conversion) the methodology (participation process) adopted by the mentioned projects are very similar and in the case of Friuli there is also a condivision of the case study area. The intention is to discuss a possible cooperation in order to give an added value to the involved projects, cooperating among different programmes and optimising the results.

A first meeting has been held on the 30th of March between FVG AlpCity case study concerning environmental certification and the Innoref sub-project AEDES which deal with a similar topic. The minutes of this meeting have been already sent to the partners.

The intention is to create a working group. Therefore we should avoid "formal presentations of the projects" but we should concentrate on **short presentations** focused on objectives, methodology, outputs and results (max 6 slides) in order to have enough time for discussion and operative proposals.

The agenda of the meeting:

10.00 -10.15 opening of works - Regione Veneto and Piemonte

10.15-10.30 the aim and the expectations of this meeting and a short summary of the previous meeting held in Udine -Ms. Alfarè- Mr. Ruoss
